OCTOBER 18, 2021
Applications go live! Access applications online at west-mec.edu. Central Program Information Sheets and application requirements are available online. Students must turn in the application verification form to their counselor after submitting an application.

JANUARY 3- FEBRUARY 4, 2022
Counselor (or parent for homeschool students) compiles and uploads required documentation including the completed rubric, current transcript and proof of residency. If applying to EMT, Fire Science, or Culinary, test scores must be included when the GPA prerequisite is not met. An electronic rubric will be emailed after a student fills out an application. For low rubric scores (below 42) or when requirements are not met, signed action plans must be attached.

FEBRUARY 4, 2022
Priority Application deadline. The following documentation must be sent to application@west-mec.org by this date: signed application verification form, proof of residence, completed electronic rubric, current transcript, and signed action plan when applicable. Refer to the application verification form for more detailed information. Students can still apply after this deadline but will be automatically placed on a waitlist.

FEBRUARY 7- FEBRUARY 25, 2022
West-MEC Student Services processes applications and determines allocations. Allocations are based on eligible applications completed by the student and reviewed by the priority deadline.

MARCH 1- MARCH 11, 2022
West-MEC Student Services ranks applicants based on rubric scores and selects students for acceptance.

MARCH 14- MARCH 18, 2022
Registration begins! West-MEC Student Services sends acceptance letters (email and physical) to accepted students. Waitlisted students and students on action plans will also be notified. Schools will also be notified. After initial allocation, West-MEC will combine ALL waitlist students to a combined master list ranked by rubric score.

APRIL 4- APRIL 8, 2022
West-MEC Student Services updates program seat availability based on completed registrations, reranks students by rubric score and updates waitlists. New acceptance letters are sent out, and additional applications are reviewed and placed when available.

FROM APRIL 9, 2022 THROUGH THE END OF SUMMER
New applications are reviewed and placed when seats are available. Waitlists will continue to be updated and maintained when applicable. West-MEC will provide a list of registered students monthly.
